Planned Events: Standard early morning meditation practice with Chakra balancing and charging during Meditation with Binaural Beat background music

Situational Observation: Over the past 18 months there has been a continuing increase in Aura frequencies associated with Union with Spirit, Chakra Charging, and balancing meditations. While the original meditation intentions were to study Biofield radiance during Chakra development exercises, it was noticed that sudden expansions or frequency increases during meditation were usually associated to connecting with Spirits that would assist in Aura development. While the next three slides provide examples of Aura expansion and frequency increase from 30 Dec 2019 to 8 June 2021, the last slide contains the most significant capstone of recordings where Energy increases were directly associated with significant Spirit interaction. Indeed, the meditation on 5 June included the meeting of Mary Magdalene where I was escorted into a great hall and I was inducted into membership with a group associated with Mary Magdalene who are identified as Christ Light Workers dedicated to bringing all the children of God to Love, Peace, Joy, and personal growth following the “Way of Jesus” as was taught to Mary Magdalene. The next meditation, immediately following the induction, presented a dramatically higher frequency at my core confluence area as well as the area above my head in the crown Chakra area. I have come to the conclusion all the Aura expansions and frequency increases over this past 18 months were a result of being guided into this Spiritual organization/realm populated by Mary Magdalene and her Christ Light Workers.
