

BioField Reader (BFR) Training Events

All Workshops and Courses are suitable for healers, therapists, meditators, clairvoyants, researchers into subtle energy and those with a general interest in seeing the unseen world of energy around us. All workshops and courses are interactive.

Workshops

During a Workshop we'll look at the biofield in well-being and imbalance and before and after therapy. You'll get a brief introduction to BFR and how it is used. You'll also get to see real-time footage of the energy around us all. We'll share our research of looking at crystals, healing, chakras, meridians and the paranormal too.

Introductory Course in BioField Imaging

Covers:

- the theory of the human biofield ("energy field")
- using the BioField Reader software
- setting up for scans – lighting, camera settings
- basic analysis of human biofield
- changes seen in the biofield in well-being/imbalance, before and after therapy
- other basic analysis e.g. crystals, meditation, energy of buildings etc

**There is approximately 6 months between the Introductory and Intermediate Courses. This is to allow students time to get used to scanning and analysing scans for themselves. In the interim period we will support BFR users by email with queries they may have and with basic analysis.*

Intermediate Course in BioField Imaging

The Intermediate Course covers:

- analysis of the biofield in more depth of people, places, crystals and more...
- discussing students' research and challenges
- other areas of research

All students will be given Certificates of Attendance after completing each Course. Letters for Insurance Companies available on request.

Venues: UK

Essex, UK The Epping Physiotherapy Clinic, 267 High Street, Epping CM16 4BP

Time: Courses start at 10am and finish at 4.30pm

Training Costs: Introductory Courses, Intermediate Courses and Workshops:

£60 each day attended.

All are welcome at Introductory Courses and Workshops. Intermediate Courses are best suited to those who have/or have access to a BioField Reader system.

BioField Reader (BFR) Training Events

Dates for 2014 Training Courses and Workshops in Biofield Imaging in the UK, Australia and India

Course	Date	Venue UK
Introductory	Sunday 23rd February 2014	Essex, UK
Introductory	Sunday 18th May 2014	Essex, UK
Workshop	Sunday 7th September 2014	Essex, UK
Intermediate	Sunday 14th September 2014	Essex, UK
